SafeCare
Stronger Families | Brighter Futures

UNDERSTANDING HOW THE SAFECARE® PROGRAM WORKS FOR FAMILIES

HOW CAN I LEARN MORE ABOUT THIS PROJECT?

Option 1: Complete the Family Contact Information form and a research team member will contact you to explain more. You can decide then whether you want to join the study.

Option 2: You can speak with the research team right away! We are standing by so that the individual you are with can help us connect to explain the research study.

WHAT IS THIS PROJECT ABOUT?

To understand how families benefit from the SafeCare program.

Does the program help you and how?

WHAT WILL I BE ASKED TO DO?

There are different parts, and you can decide which ones you wish to complete. There are 4 visits in total arranged at a time that is best for you - before you start SafeCare, after you finish, and then 6- and 12-months afterwards.

We will collect:

- Questionnaires
- Video recording of you and your child completing certain tasks.
- Hair strand from you and your child.
- Saliva sample from you and your child.
- Activities that a researcher will complete separately with you and your child.

SafeCare

Stronger Families | Brighter Futures

- Completing all the different parts takes about 1½ to 2 hours. You will complete some parts on your own on a computer, and some will be done with a research assistant on a video call.

- You will receive a $75 gift card for each visit ($300 for all 4 visits)

- Your information will be kept confidential and will not be shared with the agency working with you.

- This research project is being done separately from the agency that is working with you. You can still participate in SafeCare even if you do not participate in the research.
